## Town Will Have Schools 'It Wants', Panel Says

Under the sponsorship of the Arlington Schools Citizens' Committee, nearly 200 attended a panel discussion meeting Tuesday night at the new Thompson school on North Union st.

The theme was "Arlington Public Schools — How Much Can We Invest?"

Panel speakers and members include Arthur Saul, chairman, finance committee; Clifford R. Hall, superintendent of schools; Mrs. Eleanor J. Strong, chairman, and Mrs. Mary E. Porteus of the school committee.

"Schools It Wants" After introduction by Mrs. Milton Anderson, chairman of the Citizens' Committee, Moderator John B. Davis, Jr., executive secretary of the N. E. School Development Council, set the pace and theme of the lively session which followed.

Davis pointed out that "education is a function of the State" but that local opinion has a strong influence.

He threw out two significant quotations: "Our Schools are no better or worse than we deserve" and "Society will have the schools it wants."

He said that over a recent period of years, while the

### Board Votes Streets

The Board of Selectmen this week approved more than \$40,000 worth of street reconstruction, the cost of which will be refunded to the Town by the State under Chapter 718 of the Acts of 1956.

The streets approved by the Board are Gray st. (from Pine Ridge rd. to Oakland ave.) Park Avenue extension (near Lowell and Blossom st.) and a portion of Park Circle.

The State must now approve the projects. This week's actions brings the total approvals thus far to almost \$60,000. The State has earmarked \$115,000 for Arlington.

A STREET LIGHT will be installed at the corner of Orchard place and Massachusetts ave. by the Edison Co., it was announced this week.

## Pay Hikes, New Incinerator To Feature Town Meeting

### Listing Complete

Despite the worst weather in 7 years, the True Listing of Persons in the Town of Arlington is almost completed.

Town Clerk James J. Golden said yesterday that "progress is satisfactory."

Pointing out that the whole listing is "just a bit behind schedule" Golden praised the workers who went from house to house to record the information "despite the worst weather in my experience."

Golden said that some persons were not at home when the workers called and notices requesting the information had been left.

He urged these few residents to return the questionnaire immediately.

He said that the entire job would be completed by late today.

WINTER MEETING of the Middlesex County Selectmen's Association, which was postponed last Wednesday, was held last night. The local board attended.

### 3 Nomination Papers Receive Certification

Nomination papers of three candidates in the coming Town Election have been certified, it was announced by James J. Golden, Tuesday morning.

Golden said that certification has been given to the nomination papers of Joseph P. Greeley, candidate for re-election to the Board of Selectmen, Daniel Purcell, candidate for Assessor, and Golden himself, candidate for re-election as Town Clerk.

Golden said that Monday, Jan. 28, at 5 p.m. all papers must be filed.

### PAY HIKES

The articles concerning pay hikes for the Town Employees run the gamut, from the lowest to the highest echelon.

For example: In article 7 the Personnel Board has recommended a four per cent increase for all employees, with the minimum raise being \$168. It is estimated that entire cost of the four per cent raise would be \$91,000.

In case this does not pass, article 28 (at the request of 10 registered voters) asks a straight \$208 raise across the board.

Article 27 (inserted at the request of 10 voters) asks raises for all police and firemen, from the Chiefs on down.

### Individual Cases

In addition, 18 articles (some recommended by the Personnel Board, some by the Board of Selectmen, and some at the request of ten voters) ask reallocations and pay raises for individuals.

These boosts would all be on top of the Town-wide raise if voted by the Town Meeting.

Four articles deal with vacation and sick leave benefits for Town Employees.

Included in this group are: The Personnel Board's recommendation for three weeks vacation after ten years and four weeks vacation after 20 years service as well as 15 days sick leave for all employees and ten holidays.

Acceptance of a state law which gives a four week vacation to all state employees with more than ten years service.

## TV NOTES

by Bill Parkins

"Let's go skating!"

There I was, perched comfortably in front of the TV set catching the Jerry Lewis spec last Saturday night when some character uttered the above phrase. Now, don't get me wrong! I love skating . . . if I could skate. But I was just becoming very critical of the Lewis show (and, after all, criticism is my work) and I had looked forward to it all week . . . and let's face it . . . it was cold outside!

Well, anyway, my protests were overruled with cries of "chicken" so I had to go skating. Those lucky souls who remained behind were told to watch the show carefully because I still wanted to review it in this column. I was assured that I would receive a detailed report.

So off we went to Hill's Pond! Never having skated before didn't seem to deter my companions from bellowing "come on, chicken . . . it's easy!" So on to the ice I went . . . down I went! Up I got . . . down I went! Up I got . . . down I went!

I had the sensation that my skates were going twice as fast as my body. The jeers and laughter just made me more determined to get up and stay up! Well, it just wasn't to be, so the next time I went down . . . I stayed there!

This left my companions with nothing to laugh at so we hustled back to the TV set just as the Jerry Lewis show was ending. I asked "How was it?" Pencil in hand. I was ready to take down the detailed report.

"Wasn't bad!" "Nothing to it!" "Lousy!" "Terrific!" "Best thing he did was break up with Dean Martin!"

Now there's what you get for being a sport!

## COFFEE THOUGHTS

Most of the comment regarding Art Carney's parting with Jackie Gleason seemed to lean in favor of Art and the fact that he would be all right by himself. I hesitate! He certainly didn't set the world on fire when Jackie gave him the chance to MC several of the Saturday night shows and nobody did handstands over his performance on Dinah's Chevy Show. So I wish him all the luck in the world but he's going to have to show me!

## WATCH FOR

ANNUAL WARRANT WILL WOW!

Yesterday's announcement of the contents of the 1957 Warrant is bound to bring about heated discussion until the actual Town Meeting. It contains a huge total of 93 articles.

The 30 articles concerned with raises and benefits for Town employees are sure to come under fire. It must be pointed out however that well over half of these articles are so-called "buffers". In other words, they are in the Warrant just in case a previous article fails. For example:

If the Personnel Board's recommendation for a four per cent increase is voted down, there is still room for debate when the article asking \$208 (request of ten voters) reaches the floor.

It is the same with proposed reallocations for the Police Chief, Fire Chief, Executive Secretary, Superintendent of Public Works, and Town Accountant. As Town Employees, the four per cent boost would bring them to almost the same figure recommended by the Board of Selectmen.

One thing stands out though. The building of a school requires one article. The general budget requires one article. The formation of commissions requires one article. But Town raises? That takes 30 articles.

THIS IS WHAT IS NEEDED

An article vital to the Town may be overlooked in the expected furor over the Town Employees' raises and the request for a \$1,000,000 incinerator.

Article 69 asks for the appointment of a committee to study the advisability of the formation of a Business Development Commission for Arlington.

For some time now, we've heard the story of "We've got to do something. The taxes are too high. We need new business."

To us, this looks like the first step. It would be a shame if the matter was overlooked.

Friends Of Science  
Shown Experiments

The Parmenter School Friends of Science met in the multi-purpose room Thursday where Warren Berg of Arthur D. Little Inc., talked to the members about extreme low temperatures. Berg showed charts and other instruments and performed many experiments. He showed many different things which may be done with air.

He started his experiments at 32 degrees when water freezes all the way down to -459.6 degrees which is considered absolute zero.

When and if it ever reaches -459.6 degrees everything would be frozen, he said.

Berg took an ordinary hollow rubber ball and put it in the liquid air and when it hit the ground it cracked into many small pieces.

He then placed some mercury in a mold of a head of a hammer, inserted a wooden handle, and placed the mold in the liquidified air.

At the same time he also placed some rubber pegs in the same container.

Soon the mercury became a solid and the mold was removed. Then the pegs which had also frozen were removed so Berg actually pounded rubber pegs in a piece of wood with a mercury hammer.

That Man About Town  
By MAT

We pulled a bad boner last week! We said the deadline for filing nomination papers was last Monday. Fact is, it's next Monday, Jan. 28.

How stupid can we get? On the other hand, as we hear it, the announcement did prod some into faster action.

Latest developments are that John Keatley, 37 Henderson st., has decided against running for Selectman. Word has it that he had no idea that so many signatures for nomination were needed (around 300).

The most recent stuff is that Frederick J. Romley of Proprietors Way will go for Selectman. We were unable to contact him, direct. However, as we hear it, he has a pile of signatures.

Our staunch readers will

remember that Mr. Romley and the Advocate got themselves involved in libel suit, brought by Thomas R. Rawson, the well-known contractor and Selectman.

Thus with Rawson and Greeley running for re-election - challenged by Connie Brosnan, Bruce Hunt and Romley - this year's race ought to be a beaut!

In many quarters, there is still belief that there will still be another candidate in that fight. They just can't believe someone won't pick up the "golden opportunity." They feel that a "conservative" would have a good chance.

Conservative is a silly word but every time we use "Republican," we get accused of trying to instill party politics into the local vat.

LETTERS to the EDITOR

Release Time

To the Editor:

The letter of S. Shapiro, 68 Gray st. concerning the possibility or released time to be afforded school children is particularly interesting.

The author pointedly stresses a difference between "the child" and "the majority of the children" though the effect of that difference is unclear to the reader.

But the main errors appear to me to center on three thoughts of the writer:

1. That the children are released "for church" rather than for the study of religion, an essential element in the background of any educated person.

2. That 30-40 hours of school (a year) is "lost".

3. That released time in some way infringes on religious liberty when actually it is a privilege free of any "coercion".

Thank you for the opportunity to air these thoughts.  
Joseph X. Trainor  
19 Pine Ridge rd.

(This letter was sent to the School Committee)

"Gentlemen:

"In her letter concerning release from school time for religious education, I'm afraid Mrs. Shapiro may have given the impression, inadvertently I am sure, that there may be something unconstitutional or otherwise illegal about the plan.

"As a lawyer I think it important to make this point crystal clear: there is no question whatsoever as to the legality of the proposed Arlington program.

"For almost 16 years the laws of Massachusetts have provided that "Absences may also be permitted for religious education at such times as the school committee may establish." And it was almost five years ago that the Supreme Court of the United States put its stamp of approval on this type of released time program.

"In this country, fortunately, we are at liberty to disagree both with our local laws and our court decisions. The fact that this program has been approved by the United States Supreme Court, the legislatures of many states, and the school authorities of more than 3,000 communities throughout the country, only give added point to Mrs. Shapiro's inalienable right to express her personal disagreement.

"But personal disagreement with a Supreme Court decision does not imply that the law is unsettled. I know Mrs. Shapiro intended no such implication.

"So far as the "letter and spirit" of the First Amendment are concerned, I confess it seems to me that Mrs. Shapiro is not quite so perceptive as the opinion of the Court written by Mr. Justice Douglas: "we find no constitutional requirement which makes it necessary for government to be hostile to religion and to throw its weight against efforts to widen the effective scope of religious influence."

"It is suggested that released time might encourage "friction and divisiveness". At risk of seeming a conformist, I am impressed by the simple fact that the program has grown so that about 3,000,000 pupils presently are participating. This doesn't sound like a program that promotes friction.

"Of course our children are subjected to many subtle pressures-to go to dancing class, to join the Scouts, to participate in athletics or the

science club or the music program or a score of other activities more or less school-connected. I find it hard to object when our children are also encouraged to grow in their understanding of the one element-religion-which undergirds our whole culture. As Justice Douglas says, "We are a religious people."

"As to whether or not our children can afford to lose the time required for the program, I suppose that each parent must decide for himself if one hour a week of religious instruction is a gain or a loss for his own child.

Very truly yours,  
Ralph F. Tuller

To the Editor:

S. Shapiro in his letter of Jan. 17 raises important questions which indeed need consideration by the School Committee and the citizens of Arlington as they contemplate a released time program permitting children to leave school early for instruction at church. Mr. Shapiro wisely warns us that frictions, harmful to some children, and divisiveness, harmful to all, might occur. Surely no program should be put into effect which does not carefully safeguard against unfairness to any child, family, or religious denomination.

But it seems to me that the fundamental problem facing the community is not touched, and this is what concerns me. What can the community as a community do to decrease religious illiteracy? I myself wish that the religious community could come to agreement with the educational system so that all children could give at least one (optional) year to the study of selections from the Old and New Testaments at least - such teaching to be done by teachers as carefully trained as a teacher of Shakespeare. The objective would be to increase sensitivity to the great Judaeo-Christian tradition at least. Why should our children graduate from school knowing Shakespeare (thank heavens for that!) but not the Bible?

But, assuming that some such plan is not immediately feasible, I am so concerned about the need for more systematic and controlled work than is possible in Sunday School, that if the religious communities in Arlington find this is the best way for dealing with this problem, I am all for it. If Wednesday afternoon is the most feasible time, all the better.

I am a strong believer in (what I believe is misleadingly called) separation of church and state. But I see no reason for supposing that released time involves coercion or infringement of religious (or non-religious) conviction, which is what the First Amendment to the Constitution prohibits.

Let us guard religious (and non-religious) freedom jealously, but let us also allow those who wish to have a more adequate religious training for their children in these times to proceed with the best plans that can be worked out in Arlington.

It is at least as important to have our children understand religious problems, as it is to increase aesthetic appreciation or to have them understand scientific problems.

Incidentally, it is more important to have trained persons teach our sixteen-year-olds to drive automobiles, than it is to have trained persons teach them the Bible (both optional, of course)?

THANK YOU

To the Editor  
The widow of the late Joseph Caruso has asked me to write you and give expression in my words, in order to publicly announce how grateful she and her only daughter are for the many kind acts that have been bestowed upon her during their recent bereavement.

Mrs. Caruso and her daughter are very thankful to all of her husband's kind friends who were most kind and helpful when they heard the news of Joe's sudden death.

She has expressed to me that the memories of such loyalty shall never be forgotten and they were of great help to her.

Arlington has lost an outstanding citizen, who in a quiet and humble manner did much to make Arlington proud of him.

"Gone but not forgotten" can be truly said of Joseph Caruso.

I am respectfully yours

PARKING LOTS?

To the Editor:

I have recently come to Arlington, and have become entangled in the complex parking problem of this area. Being new here, I do not know if there have been any programs started to investigate the problem.

If there has not been such a program started, I believe something should be done immediately.

With today's high standard of living, superhighways, and growing necessity of the automobile, the problem will increase to such an extent that, within the immediate future, an unpleasant amount of pressure will be put on the town of Arlington.

It is evident that street parking cannot be allowed because of the large snowfall but I believe that public parking lots would help, if not solve the parking problem.

Such an installation would be expensive, but, by charging reasonable rates, the expense could be paid off in a relatively short time.

Perhaps today no prompt action appears necessary, but by investigating the problem now and by making preliminary plans, an unpleasant situation which is sure to arise, can be prevented.

ENDORSES COUGHLIN

To the Editor,

I would like to express my gratitude and sincere appreciation to the many voters who signed my nomination papers for the office of Town Treasurer.

The ever-increasing demand on my time by my insurance and real estate business, however, has forced upon me a decision which I hesitated to make until recently.

It is my firm conviction that the Town Treasurer must devote his full working time, effort and interest to his office in order to faithfully discharge his duties and responsibilities. This I would not be able to do.

I therefore respectfully request my friends to support and vote for the present Town Treasurer Francis A. Coughlin. I am sure he will continue to repay our trust and confidence with his diligence and integrity.

Very truly yours,  
John P. Kedian

Not to change the subject, but I've been gypped. I've always been an easy mark for these mail order ads but this last experience was a crushing blow to my penetrative business acumen.

I've wanted to buy some luxuries for some time but never had the necessary medium of exchange. This ad seemed to be the solution.

"Raise Belgian Hares. Buy one pair of our rabbits and we guarantee to pay you \$5 for each of their offspring. Be independent. Start now for fame and riches."

I bought a coop, some chicken wire, \$13 worth of lettuce and then mailed a money order for a pair of rabbits, and sat down and figured out my profits.

I lived on Mystic Valley Boulevard, but soon I would be on Easy Street. Then the rabbits arrived. The first things they said was for me to get a hutch.

Now the only hutch I know is the one who owns the candy store, and if you have ever peeked under his hat, you'd know he was a stranger to any hare. Incidentally, I caught him in his basement one night weaving some knot-grass and I can imagine what it was for.

I figured the first week, I'd get at least nine offspring, but nothing happened. You know

as well as I do that rabbits are supposed to multiply fast. These two couldn't even add. I resorted to every ruse I knew. I would even give them the multiplicant first and still nothing happened.

Three months went. Also \$22 more for lettuce. I'd go out in the morning and beg with them, plead and implore. I even told them folklore but do you think they paid any attention to me? My wife said I was hare-brained.

Things went from worse to worse. Oh they were cute all right. The neighbors' children would watch them daily, trampling over our flower beds and leaving popcicle sticks and soiled candy wrappers around the grounds.

I gave them Geritol, Vitamin B pills and sassafras. I even slyly propped up against the corner of the coop, a current issue of Modern Bride but as of today I am overwhelmingly convinced that the contemporary rabbit is not susceptible to objective suggestion.

The only thing left was to take them to a veterinary. He examined the rabbits carefully, collected his \$10 fee, and then told me they would never give me any offspring. The reason? It was simple. They were both females.

Care to come down Sunday for some rabbit stew?

ON POUND BILL

To the Editor:

I would like to bring to the attention of your readers Senate Bill #15, which would allow medical schools, research laboratories and hospitals to purchase unwanted, unclaimed animals from public pounds.

Over 100,000 such animals are destroyed every year in Massachusetts Pounds and the schools and hospitals require only about 5000 to 6000.

Isn't it better to think of these animals serving such a worthwhile purpose as saving many lives of men, women, children, and pets than be needlessly destroyed?

Yes pets have benefited very definitely from the medical research on treatment of distemper, rabies, black tongue and in heart operations. Also pets will be protected from being snatched by persons who sell them to the schools and hospitals under the present set-up. But under this new Bill, the pets will be safe, as only those animals unclaimed and unwanted after waiting a set period of time and just before they are to be slaughtered, will be purchased.

The Commissioner of Health will administer this Bill and, therefore, strict checks on those who purchase the animals will be kept and only those who meet the rigid requirements of care, etc. will be allowed to buy them. Also the medical research men are very humane and most of

them have pets of their own at home and give the animals in their laboratories better care and attention than they have ever received.

To vote against this Bill is to hamper medical progress. We would not have Polio vaccine, insulin, antibiotics, and many more life-saving remedies, except for animal research. So I urge you all to write your senator and representatives asking them to vote Yes on Pound Bill Senate #15.

### Smoking And Cancer Summary Reviewed

A summary review of information on the relation of cigarettes to lung cancer has been published by the American Cancer Society, it was announced today by the Society's Massachusetts Division.

The pamphlet, drawing on the four-year American Cancer Society study of the smoking habits of 188,000 men, was written in response to many requests for a concise, factual statement for the public on lung cancer.

The pamphlet "seek to provide a summary of a problem whose elements are changing and developing each year. It is tentative and incomplete but it may well be of special interest to young people who seek to make a decision on a rational basis about smoking."

"Lung cancer is about 27 times as frequent among those who smoke two packages of cigarettes a day as among those who have never smoked," the pamphlet states. "However, not everyone who smokes heavily develops lung cancer. It seems clear that some have a protective immunity."

The pamphlet goes on to say that the findings of the Society's statistical study and of other studies show that a man who for many years smokes heavily—two or more packages a day—has about one in ten chances of developing lung cancer eventually. The odds are about one in 36 for a man who smokes less than a pack a day, while only about one of every 270 non-smokers will develop the disease.

"Each year about 24,000 men die of lung cancer," the pamphlet says. "This is eight times as many as died 20 years ago. No other type of cancer mortality is increasing this fast, in fact cancer deaths are leveling and in some cases dropping off."

In answer to the question "Shall I give up smoking?" the pamphlet says: "The American Cancer Society feels that this must be a personal decision based on evidence available today. The evidence suggests that cigarettes are a health hazard. The specific effect of cigarette smoking on a particular individual cannot be predicted."

The American Cancer Society has no plans for a campaign against cigarette smoking, according to the pamphlet.

On the question of future plans, the pamphlet declares: "The American Cancer Society will continue to support research efforts to find out whether one or more substances in cigarettes, industrial fumes, gasoline and diesel engine exhausts, in dust from asphalt or bituminous roads, etc., actually cause lung cancer in man."

## CHRISTIAN SCIENCE

Availability today of the healing power of divine Truth will be emphasized at Christian Science services Sunday.

Christ Jesus' healing of the "woman which had a spirit of infirmity eighteen years, and was bowed together, and could in no wise lift up herself" (Luke 13) will be among the Scriptural passages read from the King James Version of the Bible. The subject of the Lesson-Sermon will be "Truth."

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy the following selection will be among those read (495:1): "God will heal the sick through man, whenever man is governed by God. Truth casts out error now as surely as it did nineteen centuries ago. All of Truth is not understood; hence its healing power is not fully demonstrated."

## Locals Bow To Melrose Sextet, 2-1; In Three-Way Tie For First Position

Arlington high school's hockey team suffered its first loss in six outings Saturday at the Arena when once-beaten Melrose came through with a 2-1 win over the locals.

The Melrose win, combined with a 10-0 Belmont victory over Rindge left the three teams tied for first place, all with nine points.

And Newton, with a record of 4-2, is only one point behind the front runners.

The Arlington-Melrose clash was all that had been expected.

The two clubs, perennial rivals for the GBI championship, gave it all they had.

Arlington's Tommy Apprille turned in what was probably his best game of the season, coming up with save after save.

The locals took the lead at 2:45 of the first period when second liner John Mahoney took a pass from the corner from Jack Aiken and let go

with a 30-foot screen shot.

Melrose got this one back at 6:55 of the same stanza when Apprille was forced to come out of the net after a loose puck. Melrose defenseman Bob Broderick whacked at the disk and it went high in the air and landed to the right of the goal. Dick Fletcher nudged it into the cage and it was 1-1.

Throughout the second period, the fans were standing up screaming as first one team and then the other made sallies into scoring territory.

Frantic back checking and the sensational play of both goalies had the crowd in an uproar.

Then, at the start of the third period, Dobbins came through with the clincher. The big center took a perfect pass from George Lowe 20 feet out on the right. He moved in and beat Apprille from 10 feet away.

Glen Crosby, the Melrose

goalie, saved two sure goals in the hectic final minutes. He went down to smother a Mahoney rebound and thwarted a breakaway by Capt. Gerry Cronin.

#### Local Fives Play March Of Dimes Games Saturday

One of the most successful undertakings of the previous year performed by the March of Dimes chairman, Robert E. Mahoney, and his committee was the basketball game and dance.

This year four teams representing the Park Dept. league will play beginning at 6:45 p.m. at the Junior High West gymnasium Saturday, Jan. 26.

The first game will feature the Park Avenue Congregational church against the Junior Legion squad.

The Park Avenue team is comprised of Donovan, Bishop, Kelley, DeCoursey, Gill, Bonaglia, McCarthy and Varillo.

The Junior Legion will be represented by Pierce, Gironi, Fanning, Sheehan, Ciampi, McGrath, McMahon, Goodwin, Flaherty and Moran.

Immediately following this game, the Boys' Club will be out to beat the St. Agnes Rams. The Boys' Club will feature D. Sullivan, Sylvester, Harold, Egan, Sullivan, Courtney, Goss, Kenney, Cox and O'Brien.

The St. Agnes Rams will have Fallis, Formicella, McCatey, Fritz, DiStefano and Kenny to help battle their way to victory.

Following the games, a record dance will be held with numerous door prizes being distributed throughout the evening.

March of Dimes cards have been passed out to the students.

The card, which contains six slots, should be filled with dimes and handed in at the door.

A drawing will be made during the evening and the cards drawn will receive one of the carefully selected prizes.

#### Arlington vs. Belmont At Arena Saturday

Arlington faces its second top-ranked opponent in succession Saturday at the Arena when it meets Belmont high school in the last regular season game of the GBI hockey league.

Belmont is tied with Arlington and Melrose for first place with a 4-1-1 record.

The Belmont six is led by Kenny Gardner who scored six goals against Rindge last Saturday.

Arlington hasn't beaten Belmont in three years.

And Arlington coach Eddie Burns isn't too optimistic over his team's chances this year either.

"They're probably the best skating team in the league," he said.

#### VISIT MINNESOTA

Mr. and Mrs. Paul H. Campbell of Arlington flew to Minneapolis, Minn. to spend ten days with his sister, June Campbell Kinsman and family recently.

Mrs. Campbell is the former Lorraine Seth of Lexington. They will also be entertained by Mr. Seth's brother and sister.

The couple will return Feb. 1 in time for Mr. Campbell to resume his studies at the University of Massachusetts in Amherst, Mass., where he is a senior.

Arlington high school's basketball team continues in its streak of bad luck.

Last Friday night at the Junior High West, the locals dropped another heartbreaker 35-32 to Watertown.

The score was tied with only 30 seconds to go, but Watertown broke through for the victory.

Arlington trailed by only a point at the half and tied the score at the end of the third period.

Capt. Charlie Pierotti with 11 points, and Joe Skenderian with 10 paced the Red and Gray.

## VFW AUXILIARY

The Ladies Auxiliary to Post 1775 V.F.W. will be hosts to the District 3 Auxiliary on Tuesday evening, Jan. 29.

The meeting will be conducted by District President Evelyn Jones who will welcome State Dept. President Celia McGinn for her yearly visit.

On Monday, Feb. 4, the Auxiliary will conduct a social party for the women patients at Bedford V.A. hospital. Hospital Chairman is Cam Parragona, assisted by President Laura Ryans and other members.

## RED CROSS DRIVE CHAIRMAN

MRS. G. EDWARD WILKINS, 23 Draper ave., is serving as chairman of the annual Red Cross Drive in Arlington for the fifth successive year. The Drive will be held during March.

## Rod And Reel Tourney To Continue Until Feb. 2

The indoor bait casting tournament, sponsored by the Spy Pond Rod and Reel Association for members of the Arlington Boys' Club, is now in full swing with ten to twelve boys participating each Saturday from 12 noon to 1 p.m. in the club gym.

The tournament, which began Jan. 5, will continue each Saturday up to and including March 30 with but one Saturday out.

On Saturday, Feb. 2, several of the boys will compete in the trials at the New England Junior Casting Championships to be held at the Sportsmen's Show in Boston.

Several of the boys, who were novices a year ago, are showing marked improvement over last year and it is quite possible they will better last year's record when they brought back three trophies from the Sportsmen's Show.

Albert Beaudoin, who was runner-up in the combined bait and fly casting event at Boston a year ago, has lost none of the skill that enabled him to finish second. In fact he is now a much better caster, both with the bait rod and the fly rod.

Stuart Belden is showing marked improvement with the bait rod and is now being instructed by Coach Thurman F. Chandler in the art of fly casting. He should do well in this event.

One of the highlights in the Boys' Club tournament thus far is the score made by Tim Mahoney last Saturday. He scored 99 points out of a possible 100 to equal a Boys' Club Casting record set on

January 28, 1956 by Eddie O'Brien.

Eddie is not competing this year due to working Saturdays.

Chris Lewis, Ted Latty, Phil Quinn, Jim Langley and Jim Morrill are all doing very well and can be counted on to have respectable scores by the time the tournament ends.

Francis Morey deserves a big A for effort. This 8-year-old lad is determined to make the grade and works hard to improve.

## COURT ST. AGNES

Court St. Agnes 141, C. D. of A. will hold its regular bi-monthly bridge and whist on Tuesday, Jan. 29, at 2 p.m. in American Legion Hall, 370 Massachusetts ave.

Mrs. Joseph Greeley will be chairman of a bridge and whist party Monday at 8 p.m. in American Legion Hall.

Committee members who will assist her are Mrs. Catherine Keefe, Mrs. William Craig, Miss Eleanor Igo, Mrs. William McKeever, Mrs. Ann L. Moran, Miss Winifred Quinn, Mrs. John Hawkes, Mrs. Mary Kelley, Mrs. Peter Greeley, Mrs. Thomas Greeley, Mrs. Alice Keohane, Mrs. Morris O'Connor, Mrs. Frank Murphy, Mrs. Philip Manning, Mrs. Helen MacGillivray, Mrs. Barbara Mahoney, Mrs. Lawrence O'Brien, Mrs. Sadie Hacunda and Miss Catherine O'Donnell.
